COCINA de MEXICO

## RESTAURANT & BAR

[www.elcorazon.net.au](http://www.elcorazon.net.au)

Mexico is a huge country with vastly different cultures, climates, and vegetation. The accidents of history, highly developed ancient civilisations, foreign invasions and influences, and diverse indigenous cultures - many of which still survive today, have all contributed to Mexico's complex gastronomy.

At El Corazon we celebrate the flavours of Mexico, from the wheat and red meat of northern Mexico, to the maize and chillies of the south. our goal is to combine the best local, seasonal ingredients with some of the best ingredients available from Mexico, to create a dining experience which reflects the amazing food found from the marketplaces of Oaxaca, to the fine dining food districts of Mexico city.

At El Corazon we cater for all occasions from amore to fiesta. If you are planning a party check out our banquet menus which are fantastic for larger groups. We understand that many diners have dietary requirements and we are more than happy to be accommodating where possible. please ask your wait staff for assistance.
